1. Product Specifications

Item	Details
Brand	Wowxyz
Product Name	Tall Cake Boxes for Tier Cakes with Window
Quantity	3 boxes per pack, includes 12 pcs clear sealing stickers
Outer Dimension	16"L × 16"W × 18"H (Inches)
Material	Recycled 3-ply corrugated white cardboard, clear PET viewing windows
Color	White
Feature	Flat-packed for storage; dual-mode carry handles; disposable; multi-side clear windows
Applicable Scene	Wedding, birthday, anniversary, holiday party, home baker & professional bakery use
Compatibility	Fits 16-inch cake drum / cake board

2. Package Contents Check

Please check all contents once you receive your package:

- ✓ 3 × Tall cake box bodies (flat-packed)
- ✓ 12 × Clear adhesive sealing stickers

If any parts are missing, torn or damaged upon arrival, please contact customer support immediately.

3. Step-by-Step Assembly Instructions

The boxes arrive flat-packed; no tools are required for assembly.

1. Lay the flat cardboard box on a clean, flat work surface. Pre-fold all pre-scored crease lines gently to get crisp corners.
2. Fold up four side panels, lock interlocking tabs and slots to form the box main body.
3. Align and fasten window panels carefully, do not apply excessive force on window edges to avoid tearing.

4. After placing your tiered cake inside the assembled box, close the remaining open flap.
5. Use the included clear stickers to lock tab-locking joints for secure closure during transportation.
6. Two carrying options: built-in top handle, or support the box from bottom for heavy multi-layer cakes.

Important Tip

For heavy large tier cakes, always support the box from the bottom when lifting, do not only carry by the top handle alone.

4. Usage & Storage Precautions

1. This is a disposable paper-based bakery transport container. Do **NOT** sit, step or place heavy objects on top of the box.
2. Store flat-packed boxes in dry, cool environment. Avoid high humidity, damp space, which may cause cardboard softening, stains or dents.
3. Keep away from sharp objects to prevent scratches and scuffs on cardboard surface and clear PET windows.
4. Allow warm-baked cakes fully cool down before putting into box, to avoid internal condensation that may moisten cardboard.
5. Recommended for transport of tiered cakes; do not leave heavy cakes stored inside the box for extended time.
6. Recyclable: Please recycle after use when box is clean.

5. Troubleshooting

Common minor issues & solutions for end-users:

Common Problem	Suggested Solution
Box creases / slight dent after delivery	The item is flat-packed paper product. Gently fold along pre-score lines to reshape. If severe damage found on arrival, take photos and contact seller support.
Loose box closure during transport	Apply the supplied clear stickers on tab-lock positions to reinforce sealing.
Window PET looks hazy / has thin film marks	A protective film may cover PET window; peel off protective layer before use.

Box cannot stay upright	Assemble on flat surface; ensure all tabs are fully inserted into matching slots.
Cardboard gets soft in humid weather	Store boxes in dry location; avoid exposing assembled box to high-humidity environment for long periods.

If you receive product with obvious stains, dirty marks, deep dents or tearing when opening your shipment, please take photos and reach out to our customer service for support.

6. Customer Support

If you meet any product-related questions, please contact Wowxyz customer service via Amazon message.
